

# Educational Prosperity

Breakout Session

# How Success Accumulates

- Biological embedding
- Foundations for success
- Cumulative effects
- Institution selection effect

# Foundations for success

- *Foundations for success.* As children develop, their outcomes are affected mainly by a small set of factors at each stage of development. These factors are considered to be universal in that they are necessary conditions for success at each stage of development.

# Five factors for success

- Quality instruction
- Material and human resources
- Inclusive involvement
- Family and community involvement
- Effective learning time

# How do you intend to apply what you have learned?

1. Choose a leader - facilitate your group discussion.
2. Choose a scribe to record your brilliant ideas!
3. You have been assigned a factor to discuss.
4. 15-20 minutes: discuss and record specific actions
